Brand New 6<sup>TH</sup> Edition of the GENEALOGIST’S ADDRESS BOOK

The GENEALOGIST’S ADDRESS BOOK is the answer to the perennial question, “What’s out there in the world of genealogy?” What organizations, institutions, special resources, and websites can help me? Where do I write or phone or send e-mail? Once again, Elizabeth Bentley’s ADDRESS BOOK answers these questions and more.

Now in its 6<sup>th</sup> edition, the GENEALOGIST’S ADDRESS BOOK gives you access to all the key sources of genealogical information, providing names, addresses, phone numbers, fax numbers, e-mail addresses, websites, names of contact persons, and other pertinent information for more than 27,000 organizations, including libraries, archives, societies, government agencies, vital records offices, professional bodies, publications, research centers, and special interest groups.

Based on a written survey of thousands of organizations and institutions across the country, and supplemented by information from printed and Internet sources, the new 6<sup>th</sup> edition of the ADDRESS BOOK has been extensively revised and updated, eliminating undeliverable addresses and defunct organizations, while adding thousands of additional sources. Besides new websites and e-mail addresses, the new edition features greatly expanded coverage of archival agencies and vital records offices, especially in the New England states and New York. In addition, it is now easier to use than ever, with all 27,000 entries divided into two easy-to-use sections.

The ADDRESS BOOK is the only *comprehensive* list of genealogical and historical resources available; the only book that places an exhaustive list of genealogy organizations at your fingertips, reducing searching to a matter of seconds. Since its first appearance in 1991, it has established itself as the most frequently consulted book on the genealogist’s reference shelf—the one research tool that almost everybody uses. Through six editions it has proved itself indispensable, and is acclaimed by beginners and professionals alike, and if you own any of the previous editions, you’ll certainly want to own this one.

“If you do any amount of writing or telephoning for assistance with your research, you need this book.”—“Tree Talks”

“Indispensable for any library supporting genealogical research.”—“American Reference Books Annual”

“This publication should be on the shelf of every genealogical library in the country.”—“FGS Forum”

“It is an essential reference book for all libraries which make any effort to serve public genealogical interests.”—“Virginia Genealogist”

## LINEAGES OF HEREDITARY SOCIETY MEMBERS, 1600s-1900s

For obvious reasons, membership in a lineage organization like the DAR, SAR, or Colonial Dames is often associated with prestige, love of country, and other emotional rewards. For sheer genealogical purposes, however, the records of lineage organizations offer researchers extraordinary opportunities to quickly extend their lineages back in time to the American Revolution, colonial period, and even the court of the Emperor Charlemagne. They can do so by connecting their own findings with the records of lineage society members that (1) have met stringent eligibility requirements and (2) document the members' pedigrees to colonial, or earlier, forebears. This CD is an extraordinary collection of 440,000 individuals who possess a connection to one or more of 13 distinguished lineage organizations. You'd have to hunt for a long time to find another research tool that promises to extend your genealogy so far back with so little effort.

#### REVOLUTIONARY WAR Pension Records

Starting with the Revolutionary War, various acts of Congress authorized the granting of pensions for invalid claims or for military service. Pension rolls--or lists of veterans entitled to receive pensions--were frequently published as Congressional reports. All such reports published between 1792 and 1841, totaling 12 volumes and containing the names of approximately 120,000 pensioners, were reprinted over many years by GPC. Now, these invaluable pension rolls are available on a single Family Archive CD, complete with an electronic name index that enables you to locate the pensioner quickly and efficiently.

The 14 books included on this CD cover a time period both shortly before and shortly after Tennessee was erected as a state from North Carolina in 1796, and they identify a large proportion of Tennessee's original settlers. Compiled from traditional record sources, these books generally contain a selection of county, state, church, and family records, specifically: cemetery records; Bible records; records of deeds, wills, and marriages; Revolutionary and War of 1812 payroll and pension records; militia records; and census records. The CD names 165,000 early inhabitants of Tennessee.

## DOBSON BOOK Signals Breakthrough for Scots-Irish Research

The origin of the Ulster Scots, or Scots-Irish, in America is a familiar story. The English Crown's concerted efforts to re-settle substantial numbers of Scots Presbyterians in Ulster in order to check the Catholic Irish began in 1607 under James I. By 1690, the Protestant

Presbyterian Synod of Ulster was created, which represented 120 congregations out of a population of nearly 150,000 Scots and their descendants. Following the demise of the Stuart reign in 1688, the status of the Presbyterian Scots-Irish declined. All public office holders in Ulster were required to be Anglicans, and the Presbyterians were required to finance the Episcopal Church of Ireland. Such facts, together with changing economic circumstances and rent-racking, contributed to the great Ulster Scot emigrations of the 18th century. In fact, over the course of that period, the Ulster Scots would become the single most numerous ethnic group to settle in colonial America.

While Americans of Scotch-Irish (Scots-Irish) descent have a substantial challenge in tracking their ancestors back to Ireland, researchers hoping to pick up the trail in Scotland face an even more daunting task. This is because there are no specific record groupings in Scotland devoted expressly to the Scots who departed for Ulster. One of the best books in print for those wishing to trace their Irish ancestry is Margaret Dickson Falley's "Irish and Scotch-Irish Ancestral Research," available from GPC. The latest reference for those interested in their Ulster-Scot ancestry is William J. Roulston's "Researching Scots-Irish Ancestors: The Essential Genealogical Guide to Early Modern Ulster, 1600-1680." While these books provide invaluable information on genealogical research in Ulster, there has been nothing in print that deals exclusively with records in Scotland relating to the Scottish participation in the Plantation of Ulster during the 17th century--until now.

SEARCHING FOR SCOTCH-IRISH ROOTS IN SCOTTISH RECORDS, 1600-1750, David Dobson's 2007 work, now back in print, was written precisely for this reason. It refers to source material in Scottish libraries and archives that could enable people of Scotch-Irish ancestry, otherwise known as the Ulster-Scots, to trace their Scottish roots. As Mr. Dobson explains, "there is a finite amount of evidence scattered throughout manuscripts and some published works held in libraries and archives throughout Scotland, especially in the southwest of the country." The author divides these records into five main categories: Church Records (probably the most valuable), Burgh (Town) Records, Court Records, Miscellaneous Government Records, and University Records, providing a detailed chapter on each that spells out exactly which records exist and where they can be found. Buttressing the text itself are a glossary, lists of family history societies and libraries, bibliographies of Scottish family histories and local histories of southwestern Scotland, an index to the contents, and more.

If you are hoping to find the Scottish origins of your Ulster-Scot ancestor, David Dobson's important guidebook might be just what you need. For more information, please consult the following link:

SCOTLAND DURING THE PLANTATION OF ULSTER: The People of Ayrshire, 1600-1699

SCOTLAND DURING THE PLANTATION OF ULSTER: The People of Ayrshire, 1600-1699 is the second volume of a series devoted to the inhabitants of south-west Scotland, who comprised the lion's share of persons who emigrated to Ulster in the 17th century. The first volume covered the inhabitants of Dumfries and Galloway; it is temporarily out of print.

SCOTS-IRISH LINKS, 1575-1725. In Two Parts [Part One & Part Two] (Low in stock)

The purpose of this diminutive bipartite book is to help persons of Scots-Irish descent make the link first to Ulster and then back to Scotland. The work identifies some 1,200 Scots who resided in Ulster between the early 1600s and the early 1700s. Many of the persons so identified were young men from Ireland attending universities in Scotland. In a number of cases, David Dobson provides information on the person's spouse, children, local origins, landholding, and, of course, the source of the information. While there is no certainty that each of the persons identified here or their descendants ultimately immigrated to America, undoubtedly many did or possessed kinsmen who did.

SCOTS-IRISH LINKS, 1575-1725, Part Three

In this much longer sequel, David Dobson sheds more light on a segment of the 100,000 Scotsmen who were re-settled by the British government in the Irish Plantation of Ulster during the 17th century. Drawing on sources not consulted for the earlier volume, Mr. Dobson has come up with an additional 2,500 mostly Lowland Scots who re-settled in Ulster--in most instances prior to 1700. As with parts One & Two, university students predominate among the transplanted.

SCOTS-IRISH LINKS, 1575-1725, Part Four

This is the third volume (and fourth part) in a series compiled by David Dobson to identify the Lowland Scots who migrated to the Plantation of Ulster (Northern Ireland) between 1575 and 1725--many of whose progeny may have immigrated to America. Typically, Mr. Dobson provides the name, occupation, place of residence, a date, and the source for an additional 1,250 mostly Lowland Scots who re-settled in Ulster.

#### SCOTS-IRISH LINKS, 1575-1725, Part Five

The fourth volume (fifth part) in this series identifies an additional 1,700 Lowland Scots who migrated to Ulster between 1575 and 1725--many of whose progeny may have immigrated to America. A special feature of this volume is the inclusion of a number of shipmasters from Ulster who traded with west-of-Scotland ports. (It is highly likely that they were residents of the port to which the ship belonged and that the skipper owned part of the vessel.)

#### SCOTS-IRISH LINKS, 1575-1725, Part Six

The penultimate volume in this series provides the migrant's name, occupation, place of residence, a date, and the source. In all, David Dobson enumerates an additional 1,500 Lowland Scots who re-settled in Ulster. Perhaps a majority of the individuals identified in Part Six were ordered into military service, including "Patrick McClelland, mustered with a sword and snaphance, in the barony of Raphoe, Donegal, 1630."

#### SCOTS-IRISH LINKS, 1575-1725, Part Seven

This is the sixth and concluding volume (seventh part) in a series compiled by Mr. Dobson to identify the Lowland Scots who migrated to Ulster between 1575 and 1725--many of whose progeny may have immigrated to America. For this volume, Mr. Dobson relied on primary source material found in the Public Record Office of Northern Ireland in Belfast, and in the National Archives of Scotland in Edinburgh. He has supplemented those findings with research into secondary sources in the Linen Hall Library, Belfast, and in the library of the University of St. Andrews, Scotland. These are sources, by and large, that Mr. Dobson has not consulted for the previous volumes in this series.

#### LATER SCOTS-IRISH LINKS, 1725-1825. Part One

In the tradition of his earlier volumes of Scots-Irish links for the period 1575 to 1725, David Dobson picks up the trail of Scots living in Ulster and of Irish living in Scotland during the next one hundred years. Unlike the previous century-and-a-half, the destination of most Scots emigrants during the 18th century was across the Atlantic and not to Ulster. The same period also witnessed the beginnings of a large-scale exodus from Ireland to the Americas. Nevertheless, there was some movement of peoples between Ireland and Scotland from 1725 to 1825--mostly students heading for universities in Glasgow or Edinburgh.

#### LATER SCOTS-IRISH LINKS, 1725-1825. Part Two

Working from primary sources in Scotland, such as university records, court records, gravestone inscriptions, family and estate records, as well as various published sources, David Dobson has amassed information in Part 2 of this series on 1,200 persons not found in the original installment (see above), roughly doubling the total number of later Scots-Irish to date.

[http://www.genealogical.com/index.php?main\\_page=product\\_info&item\\_number=9867&NLC-GenPointers1](http://www.genealogical.com/index.php?main_page=product_info&item_number=9867&NLC-GenPointers1)

#### LATER SCOTS-IRISH LINKS, 1725-1825. Part Three

Working from primary sources in Scotland, such as university records, registers of apprentices, the Aberdeen City Archives, as well as published sources such as the periodical, "Scots Magazine," Mr. Dobson has amassed information on more than 1,300 persons not found in the previous two installments in this series. Mr. Dobson identifies each Scots-Irish link by name, country, and, sometimes, city of birth or residence, situation (profession, student status, source of inheritance, etc.), a date, the record source, and, occasionally, such things as physical features, year of birth, etc.

During the Victorian Period, most of the migration went from Ireland to Scotland, but there was some traffic the other way, as Mr. Dobson documents in this 2009 publication.

Also in March, we are proud to announce our first book devoted to Portuguese genealogy: NOBLE FAMILIES OF PORTUGAL. [Volume One:] ABREU, translated and edited by Luis Pontes. Based on the work of 19<sup>th</sup>-century Portuguese genealogist Felgueiras Gaio, NOBLE FAMILIES OF PORTUGAL is the first English-language, translation of Gaios treatment of the Portuguese nobility. The inaugural volume in the series starts with the surname Abreu and its allied families.

Our other March publications include reprints of respected genealogical reference works pertaining to British Florida in the 18<sup>th</sup> century, the records of the Southern Claims Commission after the Civil War, New York City orphan train riders, 1850 immigrant inhabitants of South Carolina, and that venerable work, TWELVE VIRGINIA COUNTIES Where the Western Migration Began.

GOING TO AMERICA

To gain a fuller perspective on the life and times of your 19th-century emigrant ancestors, Terry Coleman's masterpiece, GOING TO AMERICA, is must reading. Author Terry Coleman recounts the Atlantic crossing from 1846, when many emigrants still sailed in old brigs, through 1850, when they were mostly crossing on the big American sailing packets out of Liverpool. Coleman then brings the reader to 1855, by which time the introduction of steamship travel had made Atlantic passage in steerage tolerable. Told by a brilliant storyteller, GOING TO AMERICA is a saga you won't want to put down.

## THE FAMINE IMMIGRANTS. Lists of Irish Immigrants Arriving at the Port of New York, 1846-1851

The blight that struck the Irish potato crop in the winter of 1845-46 brought ruin to countless tenant farmers and laborers, reducing almost all of Ireland to poverty. As a result, between 1846 and 1851 more than a million men, women, and children immigrated to the U.S. and Canada, mostly through the port of New York. The seven-volume FAMINE IMMIGRANTS series was conceived for the purpose of enumerating all Irish passengers who entered the port of New York between 1846 and 1851.

The passenger lists found in THE FAMINE IMMIGRANTS are arranged by ship and date of arrival in New York. Each person is identified with respect to age, sex, occupation, and family relationships, where such was indicated in the original manifests. Additionally, every volume boasts a complete-name index.

Here is the availability status of the seven volumes in this series: Volume VII is available at full price in a paperback edition. Volumes I, II & VI are temporarily out of print. The remaining in-print volumes, which are available in the original cloth edition, are described below:

## RETURN OF OWNERS OF LAND in Ireland 1876

In 1873, clerks of Ireland's various Poor Law Unions drew up lists of the owners of land of one acre or more from the property valuation and rate books in their custody. These lists, forming the basis of this book, include the names of small landowners as well as

large--owners of modest acres as well as great estates--and they stand as a census of a significant proportion of the population of Ireland in 1876.

#### IRISH PASSENGER LISTS, 1803-1806

Except for the brief period from March 1803 to March 1806, no official registers of passengers leaving Irish ports were ever kept. The exception refers to lists contained in the so-called Hardwicke Papers, now located in the British Library, London. Some 4,500 passengers are identified in the 109 sailings recorded in the Hardwicke Papers--most cited with their all-important place of residence.
